- ◆ SIC Codes
- ◆ Business Classification

PAST PERFORMANCE

Example 1

CUSTOMER

Large components provider in the aerospace and defense industry

DESCRIPTION

Customer awarded Verify its supplier management program to help improve supplier performance and reduce supplier quality costs. Verify's program management team takes full ownership of customer's supplier quality performance and initiates all necessary source activities (e.g. source surveillance, audits, product verification, corrective actions, etc.). Activity is coordinated and managed utilizing Verify's online system. The customer measures Verify by overall supplier performance and costs.

RESULTS

- 40% increase in supplier self-release and delegation
- 80% decrease in internal quality costs
- Number of approved suppliers cut in half
- Approximately \$2 million savings annually

Example 2

CUSTOMER

Large engine provider in the aerospace and defense industry

DESCRIPTION

Verify provides supply chain management services to this customer to help manage its global network of suppliers. Specific source activities include production control, expediting, auditing, supplier development, product verification, and corrective action management. Verify works directly with underperforming suppliers in an effort to drive improvements and ensure quality product is delivered to the customer on-time.

RESULTS

- All corrective actions closed out and validated
- Number of suppliers on surveillance eliminated as a result of improved performance
- Supplier escapes decreased significantly
